Director's Meeting

Friday, 19 October 1951

HR70-14

Colonel Taylor mentioned problems that were arising in relation to the expansion of the [redacted] operations. The DCI stated that the whole Magnitude question worried him. He said that our operations were getting so extensive that they were almost becoming a "cold war department". He will not be able to talk to Col. Johnson and Col. Stilwell [redacted] until he has had a few days to consider the whole O/PC question.
